Lessard Group is the leader in design, manufacturing and installation of intelligent building envelope systems, with a complete range of doors and windows, curtain walls and panels, for commercial, institutional, industrial and multi-dwelling buildings.

**Proven approach, unequalled results**

Since its founding, as a result of many innovative projects it has completed, Lessard Group has become the leader in the area of aluminum and glass architectural systems.

Relying on the solid expertise of its team members and ongoing major investments in its R&D and innovation centre, Lessard Group is consolidating its leadership by putting forward creative and innovative solutions.

An industry pioneer

Lessard Group has distinguished itself through the design and manufacturing of European-type window systems with a sophisticated rain screen principle, French terrace doors with simple mechanisms and unparalleled sturdiness, unique tilt and slide doors, and intelligent, energy-efficient, acoustical curtain wall systems. These many technological innovations make Lessard Group an industry pioneer.
